Process Optimizer in Plastics Technology (m/f/d)

Arbeitgeber
Spang & Brands

Arbeitspensum
Vollzeit

Arbeitsort
Max-Planck-Straße 25, 61381, Friedrichsdorf, Hesse, Germany

Beschreibung

We are currently looking for a **process optimizer** (m/f/d) to join our team.

Zuständigkeiten / Hauptaufgaben

- Analysis of existing processes and procedures, as well as their optimization in plastics manufacturing
- Optimization of injection molding processes in terms of quality, cycle time, and process reliability
- Introduction and optimization of technologies
- Conducting training and instruction
- Sampling of new tools and materials
- Preparing and carrying out conversion and adjustment work on injection molding machines and their peripherals
- Identifying disruptions in the production process and taking measures to eliminate them permanently
- Quality testing and evaluation of finished products

Qualifikationen / Anforderungen

- Successfully completed training as a plastics moulder (m/f/d) or process mechanic for plastics and rubber technology (m/f/d) or tool mechanic (m/f/d) in the field of plastic injection moulding – ideally further training as a master craftsman (m/f/d) or technician (m/f/d)
- Experience in sampling new tools and optimizing manufacturing processes in plastic injection molding
- Excellent knowledge of machines and tools
- Strong technical understanding and quality awareness
- Good communication skills, initiative, and flexibility
- Basic knowledge of IT systems
- Process- and team-oriented thinking
- Goal-oriented and structured way of working
- Commitment
- Good communication and teamwork skills
